THE ORACLE

2025

Letter From The Principal

Dear Students of the Class of 2025,

When you read this, you will hopefully be sitting on Landrigan Field, signing yearbooks, preparing for graduation practice, and enjoying what may be the last organized school event with your high school classmates. Some of you have known each other for twelve years or more. You have taken classes together, played sports together, shared performances, and formed lifelong friendships. Even though the end of your high school education is here, this is not merely the end of a chapter; it is the beginning of a new adventure!

As you take your next steps out of WMHS and into the world, I want to remind you of the words of J.R.R. Tolkien: "Not all those who wander are lost." The life that will unfold as you move forward is a journey, with twists and turns, moments of wandering, and unexpected detours. However, sometimes the most unexpected paths lead to the best experiences. I urge you to embrace the journey, explore your passions, and be brave in trying new things and seeking adventure. While I hope you have learned a great deal at WMHS, I know the world outside holds even more lessons for you. So, embrace the challenge and enjoy the journey!

On behalf of the entire WMHS community, I want you to know how incredibly proud we are of each of you. We also eagerly anticipate seeing all the great things to come on your respective journeys!

Ms. McLeod

Letter From The Editors

Class of 2025-

As the pages of this school year draw to a close, the yearbook staff is hard at work capturing the memories that define us. In an era dominated by digital screens and fleeting social media posts, we understand the question: why print a yearbook? Why create a tangible record in an increasingly intangible world?

The answer lies in the enduring power of physical connection.

We live in a world of endless scrolling, where moments are quickly consumed and just as quickly forgotten. Digital photos and videos, while convenient, can easily become lost in the vast expanse of the cloud. Our yearbook, however, offers a different experience.

It's a curated collection, a tangible artifact that allows us to hold our memories in our hands. It represents the parts of us that we feel future generations need to know. Long after our Snapchat stories and Instagram posts disappear into the digital mist, our yearbook stands as a testament to the enduring value of tangible memories, a reminder that some moments are too precious to be lost.

Our yearbook is a legacy built on paper, a testament to the moments that truly mattered to us at WMHS. We can't wait to show you who we are.

The Oracle Staff

Dedicated to: Ms. Suzanne Burns

Your kindness, patience, and unwavering support have made all the difference in the lives of so many students. Whether you're offering guidance through difficult times, lending a listening ear, or simply being a comforting presence, your impact reaches far beyond your office walls. You make WMHS a better, safer place, reminding us that we're never alone in whatever we're facing. Your dedication, compassion, and belief in your students don't go unnoticed, and we are so lucky to have you. Thank you for everything you do—our school wouldn't be the same without you!

Spring Sports & Events

N.B. We're thrilled to share this year's memories with you! Due to printing deadlines, complete coverage of spring sports, senior prom, graduation, and other late-spring activities is featured in a special 20-page supplement, which will be distributed in the fall around Thanksgiving. While we've included team photos here, the supplement will provide more comprehensive coverage. We hope you enjoy both your yearbook and the extra memories to come!

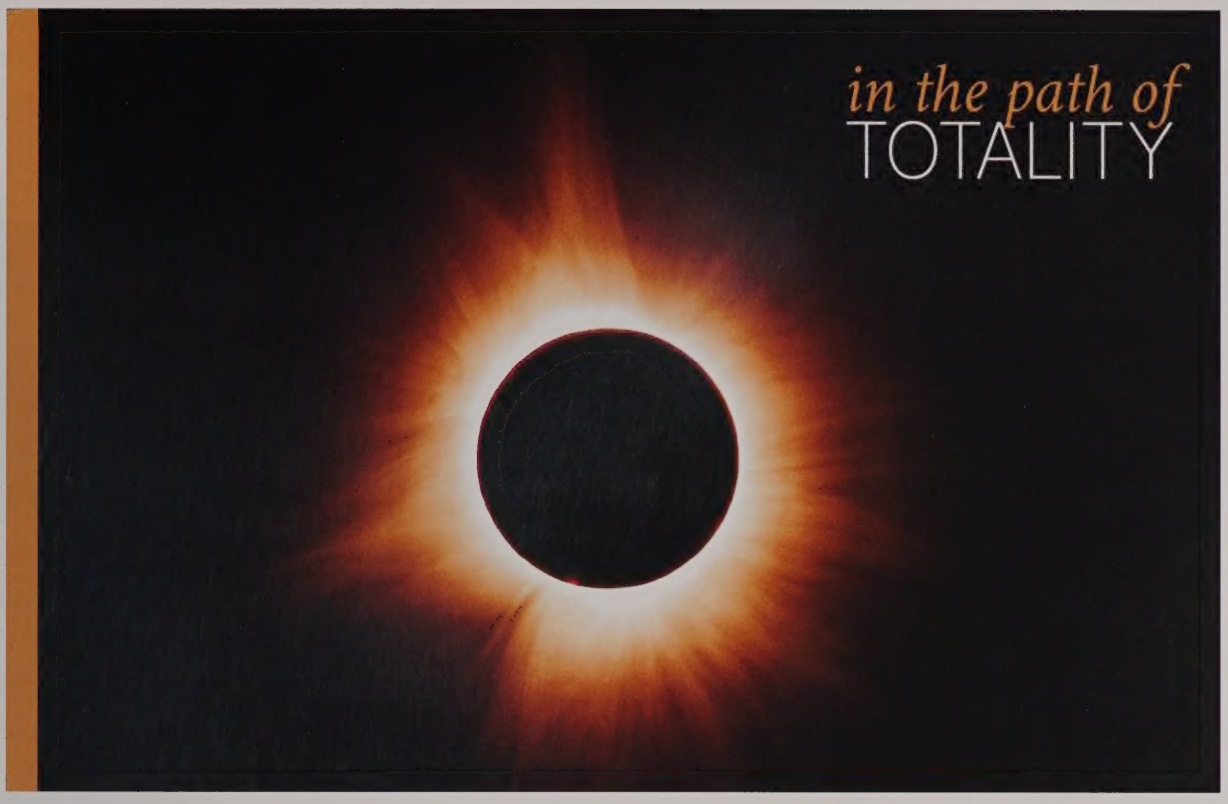
YEAR in REVIEW

in the path of TOTALITY



AFTER BEGINNING IN THE SOUTH Pacific, the Great North American eclipse traveled across the continent on April 8 from Mexico's western coast, traveling northward across Texas, up to Maine and southern Ontario before exiting continental North America from Newfoundland, Canada.

hurricanes hit hard

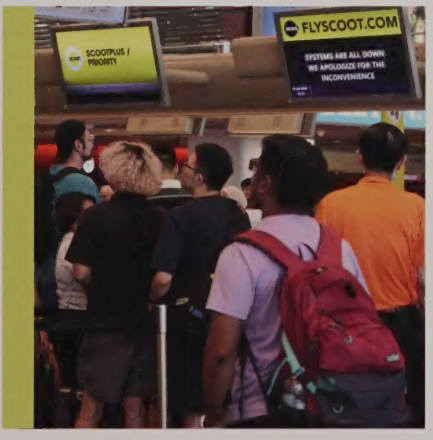
WITH WIND GUSTS UP TO 140 MPH, Hurricane Helene made landfall in Florida's Big Bend region as a Category 4 storm and traveled northward as far as Virginia. The western side of North Carolina saw significant flooding with some areas near Asheville receiving nearly 10 inches of rain in two days. There were 104 fatalities in the state and 219 overall. Thirteen days later, Hurricane Milton hit the Tampa Bay region, the first hurricane to do so in more than a century. Milton's central pressure dropped to 26.64 inches of mercury, making it the fifth-strongest hurricane ever recorded. Following the storm, 19 confirmed tornadoes hit the area.

girl power

FOR THE FIRST TIME in 200 years, Mexico swore in a female President. Scientist-turned-politician, 62-year old Claudia Sheinbaum defeated her opponent, also a woman, by nearly 20 million votes and replaced her mentor after serving as the first female mayor of Mexico City.

GROUNDED FLIGHTS

WHEN CROWDSTRIKE, a cybersecurity firm, pushed out a routine software update, millions of Windows systems worldwide were left viewing an error message and leaving them unable to access the programs. Among those affected were the airline industry, with more than 4,295 flights canceled globally, banks, who reported customer access problems, and even Starbucks, which closed its doors due to issues with mobile ordering. The software update was rolled back in less than two hours, however, the recovery time took much longer, requiring manual updates to affected machines.



HE CLIMBED EVERY MOUNTAIN

WHEN HE REACHED THE SHISHA PANGMA'S SUMMIT, Nima Rinji Sherpa, became the youngest person to ever climb all 14 of the world's "eight-thousanders," breaking a record previously held by his uncle. All located in Asia's Himalayan and Karakoram ranges, these mountains tower over 26,247 feet (8,000 m) and possess elevations with insufficient oxygen to sustain human life for extended periods of time. He climbed his first, Manaslu, in Aug. 2022.

GOOGLY EYE BANDIT

IN AUG. 2024, residents of Bend, OR, started seeing googly eyes on public art around the city. The prank soon went viral. On Jan. 26, Joe Keith, founder of the Guardian Group, claimed responsibility.

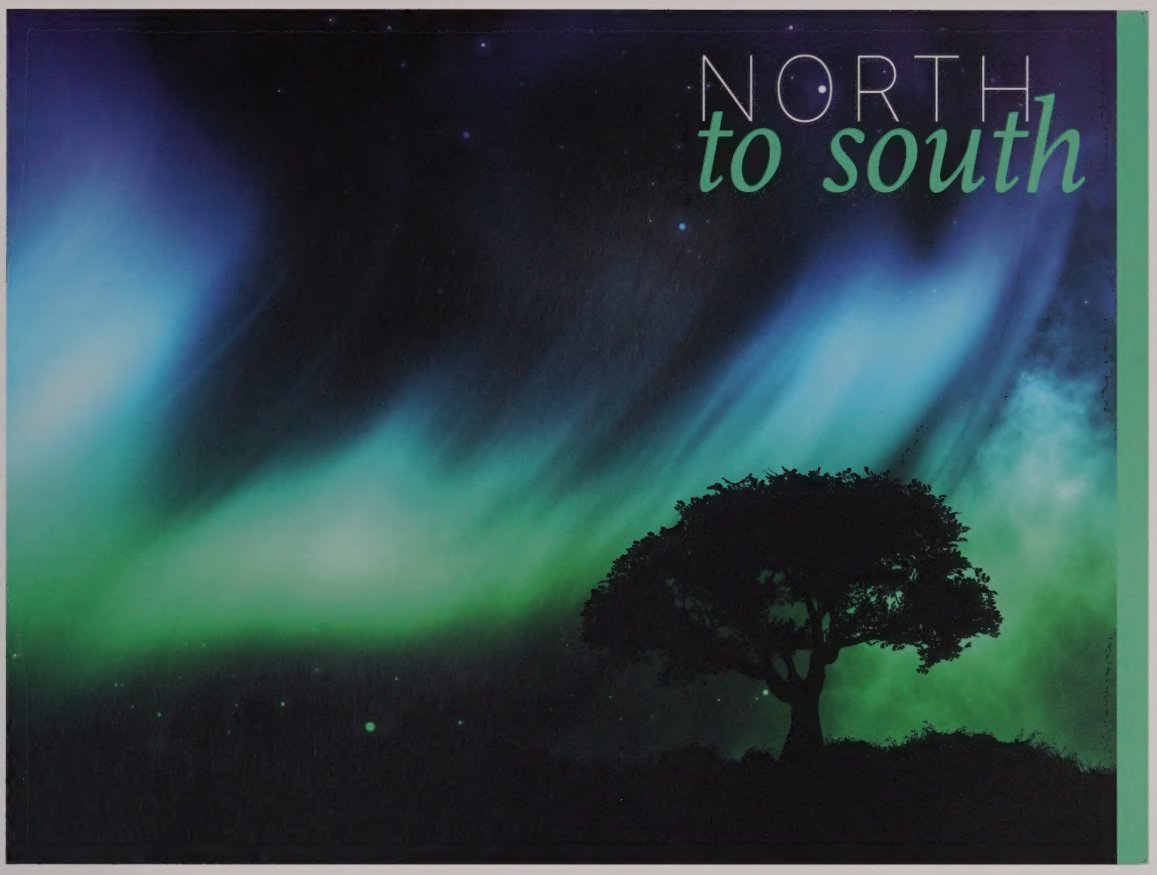
WE SAID GOODBYE to influential icons: James Earl Jones, Academy Award winning actor and the voice of Darth Vader; Shannen Doherty, actress; Willie Mays, Hall of Fame center fielder; Gena Rowlands, two-time Golden Globe winner and four-time Emmy Award recipient; Quincy Jones, record producer and winner of 28 Grammy Awards; Richard Simmons, exercise guru and television personality.

170 MILLION AMERICANS were shut out of TikTok on Jan. 18, two hours before the ban was officially to begin. In April 2024, Congress passed a bill with broad bipartisan support preventing American companies from hosting content for the Chinese-owned social medial platform over concerns data collected could pose a risk to national security. On Jan. 20, President Trump signed an executive order to delay the ban for 75 days, which restored TikTok access for American users under the hope of the app being sold to non-Chinese owners within the 75 days.

ON DEC. 29, PRESIDENT Jimmy Carter died peacefully at his home in Plains, GA. The 39th President of the United States, Carter's administration was highlighted by the Camp David Accords. Known also for his post-presidency, the longest in American history, Carter stayed active in international diplomacy and was the recipient of the Nobel Peace Prize in 2002. The President's and former first lady Rosalynn Carter's guiding principles also guided the formation of The Carter Center at Emory University to focus on human rights and the alleviation of human suffering. The Center sought to prevent and resolve conflicts, enhance freedom and democracy, and improve global health. Earlier in the year, Carter turned 100, becoming the first former President to do so.

NORTH to south



A SERIES OF SOLAR FLARES resulted in periods of increased possibility to see the Aurora Borealis, known as the Northern Lights. These "sun burps" sent electrified gas traveling through space at high speeds, that when interacting with the Earth's atmosphere, resulted in a painted night sky which could be seen as far south as Florida and Texas, a farther distance of view than what usually has been seen.

KEY BRIDGE FALLS

BALTIMORE'S FRANCIS SCOTT KEY bridge, opened in 1977 and 1.6 miles long, collapsed after a cargo ship lost power and crashed into one of its supports. Plans to convert the bridge to a cable-stayed bridge and raise it from 185 feet to 230 feet were announced on Feb. 5.

STUCK IN SPACE

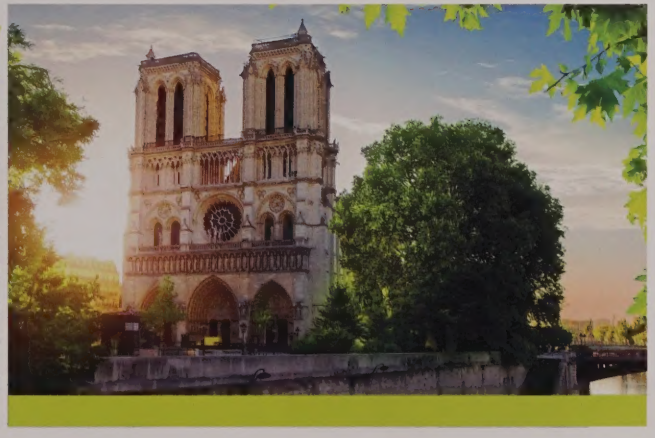
THE BOEING STARLINER carrying U.S. astronauts Sunita Williams and Barry Wilmore docked at the International Space Station on June 5. It was supposed to be for eight days, but when thruster failures deemed the spacecraft unsafe, the unmanned ship returned to Earth on Sept. 6, leaving Williams and Wilmore behind at the ISS with the rest of the crew.

RESEARCH ADVANCES

HARVARD MEDICAL SCHOOL RESEARCHERS designed an AI model able to predict patient outcomes when testing 19 cancer types. "Our model turned out to be very useful across multiple tasks related to cancer detection, prognosis and treatment response across multiple cancers," study senior author Ken-Hsing Yu said.

cathedral reopened

ON DEC. 7, nearly five and a half years after the fire that destroyed much of the 13th century Gothic cathedral, Notre-Dame de Paris reopened its doors. The initial ceremony was followed by an inaugural Mass the following day. €840 million was raised by the public for the restoration project. The cathedral was opened to the public on Feb. 5.



house LEADER

AFTER HOURS OF UNCERTAINTY, Republican Mike Johnson received enough votes to win reelection as Speaker of the House of Representatives. Two holdouts flipped their votes, giving Johnson a narrow 218–215 approval, after receiving last-minute phone calls from President-elect Donald Trump.

BACK IN OFFICE

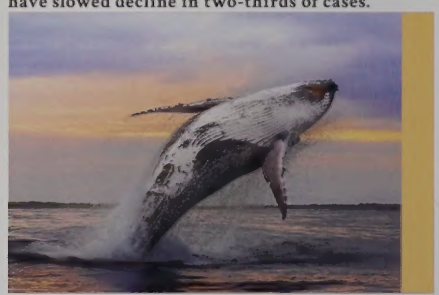
AFTER LOSING TO PRESIDENT Joe Biden while running for reelection in 2020, the 45th President, Donald Trump, secured 312 electoral votes during the 2024 election to return to office as the 47th President of the United States. This was the first time a Republican candidate won the popular vote as well since George W. Bush in 2004. Trump was inaugurated on Jan. 20 inside the U.S. Capitol Rotunda due to cold weather.

TICKET CHANGE

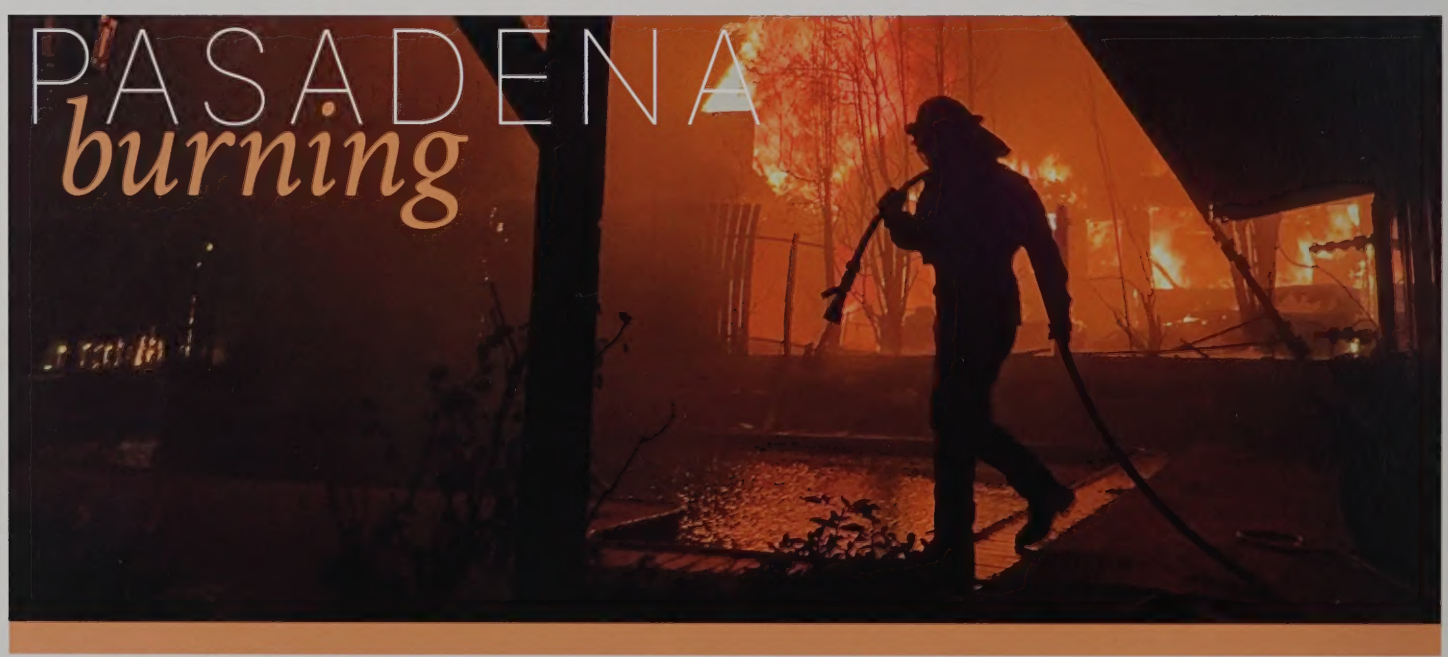
WITH ONLY 258 DAYS until election day, President Joe Biden withdrew from the presidential election and endorsed Vice President Kamala Harris as the Democratic nominee. Biden became the first incumbent President to not seek reelection since Lyndon Johnson in 1968. Harris then raised $81 million in small-dollar donations in the first 24 hours after accepting the nomination, more than any candidate in history.

MAKING A *difference*

A STUDY PUBLISHED in the journal *Science* analyzed hundreds of conservation projects and concluded that current efforts to save the 44,000 endangered species are showing signs of success. The creation of protected areas and attempts to remove invasive species have slowed decline in two-thirds of cases.



PASADENA *burning*



WILDFIRES ERUPTED ACROSS LOS ANGELES on Jan. 7, destroying 16,000 structures and causing 180,000 to evacuate their homes. Six separate fires, worsened by wind gusts reaching 100 mph destroyed 39,000 acres. Nine states sent fire crews to the area, and 1,400 fire engines and 84 aircraft fought the blazes. One hundred percent containment was not reached until Feb. 1.

DEFENSIVE *domination*

PHILADELPHIA QUARTERBACK JALEN HURTS started the season facing questions about his play, but ended it winning the Eagles' second Super Bowl trophy in franchise history, defeating the Kansas City Chiefs 40–22. Leading his team to a 24–0 shutout at halftime, the game's eventual MVP became the only player in NFL history with at least 10 passing touchdowns and 10 rushing touchdowns in postseason play. He finished the game completing 17 of 22 passes for 221 yards. Hurts ran for the most rushing yards by a quarterback in a Super Bowl with 72, breaking his own mark set two Super Bowls earlier, and became only the third quarterback to start and win a college football national championship and a Super Bowl, joining Joe Namath and Joe Montana. On the other side of the ball, the Eagles' defense dominated the Chiefs, sacking quarterback Patrick Mahomes six times, creating two interceptions (including a pick-six) and forcing a fumble. The Eagles' front four rattled Mahomes the entire night, generating pressure without blitzing but pressuring him 16 times. The sacks were the most in any game in his career.

another CHAMPIONSHIP

AFTER FINISHING THE SEASON with a league best of 98–64, the Los Angeles Dodgers came back from a 5–0 deficit to defeat the New York Yankees game five, winning their eighth World Series. First baseman Freddie Freeman was named series MVP after a record-tying 12 RBI and hitting home runs in the first four games of the series.

RETURNING *HOME*

AFTER LEADING NEBRASKA TO A NATIONAL CHAMPIONSHIP in women's volleyball as a senior in 2006, Dani Busboom Kelly returned as the fourth coach in the program's history when longtime coach John Cook retired on Jan. 29. Cook coached the Cornhuskers for 25 years, leading them to four national championships. Busboom Kelly coached on Cook's staff from 2012–2016 before taking the Head Coach position at Louisville where she coached the last eight seasons and led the Cardinals to a national championship game appeareance in 2024.

AS REALIGNMENT RESHAPED the landscape of college athletics, 21,685 athletes entered the transfer portal across all sports. Meanwhile, Name, Image and Likeness (NIL) compensation for athletes resulted in some college football teams paying thier teams, collectively, upwards of $20 million. Congress mulled granting the NCAA an antitrust exemption in order to apply uniform standards while maintaining compliance with Title IX, which requires financial assistance be proportional for male and female athletes.

The Buckeyes defeated the Fighting Irish 34–23 with a balanced offense (231 passing yards and 214 rushing yards) and a stout defense that limited Notre Dame to 53 yards on the ground.
